

I have been an animal lover since I can remember. I love going to zoos or shelters and looking at all the amazing and different animals from throughout the world. As a child, I did not have much thought about these animals being endangered or the problems that they face, but as I have gotten older and realized the struggles they go through, particularly due to human development, I have always wanted to do something about it. My page gives a description of each of the four animal types, as well as shows videos of them and also gives a link to those who would like to donate to the respective type! My page has a few sections:

- Home page
  - About the page / video
- Amphibians
  - About amphibians + link to donate + video
- Reptiles
  - About reptiles + link to donate + video
- Birds
  - About birds + link to donate + video
- Mammals
  - About mammals + link to donate + video
- Footer
  - How to subscribe to newsletter/updates
